MEMORANDUM FOR: Worldwide Briefing Participants

The plan at both the House and Senate Armed Services Committee meetings tomorrow is for the Committee members to have copies of the text before them while we make our oral presentations. I believe the Director will say that we will therefore just give brief summaries of our representative statements and not read word for word. I urge you to do that.

(Transportation to the Hill tomorrow will be leaving the Main Entrance at 0915. Because of the two sessions, there will be no arrangements for transportation back to Headquarters until after the afternoon session has been completed.)
